## PRODUCT INFORMATION

Zerust® ICT® Plastabs® are thin, light, rigid polyethylene squares that are made with patented Zerust® ICT® corrosion inhibiting technology. Their small, thin shape makes Plastabs® perfect for protecting critical surfaces within narrow or hard-to-reach areas of parts or equipment. Zerust® ICT® Plastabs® can be affixed to most surfaces with a peel-adhesive backing (optional), or simply dispersed throughout bulk packages of metal parts. Use Plastabs® as a supplement to other Zerust® ICT® packaging products for added protection or alone for the protection of restricted spaces and electrical components in enclosure cabinets or control boxes.
