

## Zerust<sup>®</sup> UK Car Cover

The Car Cover is:

- Corrosion proof
- Water resistant
- Mold proof
- and Rust-inhibiting

Zerust<sup>®</sup> Car Covers are woven with corrosion inhibiting formula to provide a VCI (Vapour Corrosion Inhibitor) protection on the surface of your automobile. The Car Cover fulfils all the traditional uses of a car cover—protection from water and sun—but also provides a unique protection against rust and corrosion without intensive upkeep. The rust and corrosion inhibitors will remain active for 5 years after the date of purchase.

Before you place your order, measure your vehicle to determine which size is most appropriate. You'll want a snug fit, though still leaving enough room to zip your Zerust car cover. Contact us if you need help sizing your vehicle.

Please note: although the material used to make Zerust car covers is water proof the covers are not completely waterproof due to the effects of sewing in the zippers and the liner.
